

Read me file

<https://heartfelt-sawine-99190c.netlify.app/> -> website link

- Setup a folder called career-passport and create folders named
 - career-bank
 - data
 - image
 - images
 - multimedia
 - quizzes
 - resources
 - stories
- save all the json files of respective modules in their respective folders (every folder must contain 4 json files for 4 categories)
- image folder contains pictures for about us page
- images folder contains pictures for success stories and resource page
- index.html, index.css and index.js should be saved directly in the career-passport folder.
